

wmHIPAA

The Client

Client is webMethods, a leading Business Integration company and client has got a rich history of providing integration tools with Innovative break through technologies. webMethods integration solutions are powered with cutting edge technologies like Web services and Enterprise Services-Oriented Architecture. webMethods has chosen Softima to broaden their integration potential to healthcare segment.

The Challenge

To provide highly scalable and reliable HIPAA adapter, which validates and enables the exchange of various health care X12 EDI documents between the industry entities like providers, payers, financial bodies etc.

Scope of the Project

To develop and test the healthcare transactions as part of joint development venture with webMethods.

- 270 Eligibility, Coverage or Benefit Inquiry (Batch and Real-time)
- 271 Eligibility, Coverage or Benefit Response (Batch and Real-time)
- 276 Health Care Claim Status Request
- 277 Health Care Claim Status Notification
- 278 Health Care Services Review-Request & Response
- 837 Health Care Claim: Dental
- 837 Health Care Claim: Institutional

Our HIPAA knowledge and health Care expertise helped to provide this solution in record time.

Softima’s automated testing tools and quality procedures helped to rollout a foolproof product.
